PROFILE

Senior full-stack engineer with 17+ years shipping scalable web platforms for startups, agencies and enterprises including PSA Group (Peugeot / Citroën), Sodexo and Riskhub. Core expertise pairs PHP / Laravel back-ends with Vue.js / Nuxt 3 front-ends. Track record of modernising legacy codebases (Zend Framework 2 → Laravel), designing OpenAPI-first APIs, implementing role-based access control, and automating developer tooling. Toptal-vetted (top 3 % of freelance talent). Currently practising **AI-first development** — coding agents, autogenerated SDKs, contract-first specs as machine-readable interfaces, and prompt-aware code review.

FEB 2026 – PRESENT

Full-Stack Developer *at Sonin App Development*

Reigate, UK • Remote • Contract

- Building enterprise-grade **ISS Compliance** management platform on a Laravel API + Nuxt 3 monorepo.
- Designed and shipped **RBAC** with granular permissions across both backend and frontend layers.
- Containerised RESTful APIs via Docker; SSR-safe dynamic Nuxt 3 frontends.
- Authored a reusable component library to maintain UI consistency and accelerate delivery.

STACK Laravel • Nuxt 3 • Vue.js • TypeScript • Docker • MySQL • REST APIs

NOV 2022 – SEPT 2025

Software Engineer *at Riskhub Ltd*

London, UK • Hybrid • Full-time

- Lead developer on key product features across **Laravel**, **Vue 2 / 3**, **Nuxt** and **TypeScript**.
- Modernised a 10+ year-old **Zend Framework 2** codebase to **Laravel** without downtime.
- Designed **OpenAPI**-first APIs enabling contract-first development across teams.
- Auto-generated JavaScript and PHP SDKs from API specs — eliminating client / server contract drift.
- Hardened code quality with unit tests, Behat BDD scenarios, and API-spec validation.

STACK Laravel • Zend Framework 2 • Vue 2 / 3 • Nuxt • TypeScript • jQuery • OpenAPI

APR 2022 – OCT 2023

Full-Stack Developer *at Aris Technologies Ltd*

Oxford, UK • Contract

- Developed platform features for an **eGaming and social-gaming** company, lifting player engagement.
- Conducted code reviews, fixed bugs and improved overall codebase quality and test coverage.

STACK Laravel • WordPress • Vue.js

AUG 2018 — DEC 2021

Web Developer at *Sonin App Development*

Reigate, UK • Full-time

- Delivered end-to-end web and mobile solutions for high-profile agency clients, from backend APIs to responsive frontends.
- Built backend systems in Laravel, integrated third-party APIs, and developed frontends in Vue.js, React and React Native.
- Managed technically demanding projects with tight deadlines, consistently meeting delivery milestones.

STACK Laravel • Vue.js • React • React Native • AngularJS • WordPress • jQuery • Vagrant

JUN 2017 — MAR 2018

PHP Developer at *PSA Group · Peugeot / Citroën*

Coventry, UK • On-site • Contract

- Built internal web applications at the UK corporate HQ for in-house teams and a nationwide dealer network.
- Led the implementation of the Customer Incentive Web Application used by dealers and internal stakeholders to manage promotional campaigns.

STACK Laravel 5.4 / 5.5 • Vue.js • JavaScript • Apache • Vagrant • Linux

OCT 2016 — FEB 2017

PHP Developer at *Sodexo · pComm employee benefits*

Milton Keynes, UK • On-site • Contract

- Migrated legacy .NET applications to Laravel at the UK HQ of this global facilities-management company.
- Integrated with Oracle databases via OCI8, ensuring data continuity during platform transition.

STACK Laravel 5.2 • Oracle OCI8 • Apache • Nginx

MAR 2014 — FEB 2017

Senior PHP Developer at *Toptal*

Remote • Freelance

- Accepted into Toptal's exclusive network — top 3 % of global freelance developers — after rigorous screening.
- Delivered PHP / Laravel projects for international clients with high quality standards.

2011 – 2014

PHP Developer at *Datavel* · *Bondmedia* · *Tourconstructor* · *Kreative Charge*

London, UK · Various agencies

- **Datavel:** built a hotel-booking and air-ticket-sales platform with custom CRM, integrating multiple 3rd-party APIs.
- **Bondmedia:** developed WordPress and Magento plugins, themes and extensions; managed Linux servers.
- **Tourconstructor:** built a travel-agency web application serving the Russian market.
